MAINTENANCE

Dogs up to 20 lbs: 1 Soft Chew Daily

Dogs 21 to 80 lbs: 2 Soft Chews Daily

Dogs Over 80 lbs: 3 Soft Chews Daily

This Scientifically Formulated Hip & Joint Solution Includes the Following Active Ingredients per Soft Chew

GLUCOSAMINE HCL FROM SHELLFISH – 250mg

Glucosamine in the body is used to make a "cushion" that surrounds the joints. Taking glucosamine hydrochloride as a supplement might help to supply the materials needed to rebuild the cushion.

CHONDROITIN SULFATE – 50mg

Taking chondroitin sulfate, one of the building blocks of cartilage, might slow its breakdown.

MSM – 200mg

Also known as Methylsulfonylmethane, MSM is a naturally occurring chemical, which provides a dietary source of sulfur. It works to naturally reduce discomfort and swelling in joints.

BOSWELLIA SERRATA – 100mg

Helps to relieve joint discomfort.

VITAMIN C – 25mg

Also known as Ascorbic Acid, Vitamin C participates in the formation of bones, teeth and soft tissue, is an antioxidant and can be helpful during times of stress.

HYALURONIC ACID – 1mg

Hyaluronic acid works by acting as a cushion and lubricant in the joints and other tissues. In addition, it might affect the way the body responds to injury.

MANGANESE SULFATE – 1mg

Supports bone mass and helps relieve joint pain. Stimulates the immune system.
